

I. E. JUAN XXIII Plan de Apoyo 3er Periodo Inglés Grado: 7º

Docente: Ángel Monsalve 2018

Lee las descripciones de algunos de los animales que habitan nuestros ecosistemas y escribe el número (1 – 5) al frente del animal que corresponda dicha descripción.

1. This magnificent creature is known as the King of the Andes, and is the largest flying bird in the world. With its wings fully open it can measure up to 3.4 metres. It has great eyesight, which makes it the perfect hunter and it can fly, or glide, up to one hour without moving its wings.

2. The Amazon and Orinoco Rivers are this mammal's natural habitat. Adults have a very unusual colour and can weigh up to 185 kilos and measure up to 2.5 metres in length.

3. This furry mammal spends most of its life hanging upside down from trees in the forest. Its name comes from the fact that at first it seems very lazy and slow. There are two species of this mammal: two-toed and three-toed.

4. This animal gets its name from the distinctive white marks around its eyes. Its fur is usually black, but sometimes it can be a red-brown colour. It has a great sense of hearing.

5. This little animal is only found on the island of Gorgona, where it lives in the trees. Its distinctive colour is very rare for this species.

- a. Pink dolphin
- b. Anole lizard
- c. Andean condor
- d. Spectacled bear
- e. Sloth

Completa la tabla utilizando la información del ejercicio anterior

animal	habitat	Body covering	How it moves	What it eats
Pink dolphin	rivers	skin		
Anole lizard				insects
Andean condor	mountains		flies	
Spectacled bear		fur		
sloth				plants

Escribe 5 cosas que has hecho recientemente, usando **Present perfect**

Ejemplo: I have played sports this week
